

LEVAN MACHINE & TRUCK EQUIPMENT

**A TRADITION OF EXCELLENCE
FOR OVER 89 YEARS!**

Since its humble beginnings in 1936, through good times and bad and everything in between, Levan Machine & Truck Equipment headquartered in Fleetwood, PA, just outside of Reading, has adapted with the demands of its customers and expanded its product lines and services over the years, and today it is recognized as one of the top 50 businesses based in Berks County.

Levan Machine and Truck Equipment is a one-stop, full-service machine shop and work truck and van upfitter, for all things related to CNC machining and commercial vehicle upfitting. Since 1936 their machine shop has serviced customers throughout the United States and internationally. From custom repair and manufacturing machining and fabricating, to prototyping, to welding, to completely engineered projects, Levan Machine and Truck Equipment is a job shop that specializes in custom work.

In 2010, Levan launched their Commercial Truck Upfit division which services the commercial and fleet market throughout Pennsylvania and the northeast. Their highly qualified, experienced team builds a commercial truck or van specific to your daily work needs. Whether you need a service, platform, crane, or dump body, snowplow or spreader, liftgate, central hydraulic system, or power take-off (PTO), Levan's truck experts are trained to build a truck that will increase your efficiency and get the job done safely. They also offer general truck repair, maintenance, and inspection, plus they provide after-market truck accessories/parts, including spray liner.

Levan Machine and Truck Equipment has an extensive selection of truck products and primarily serves customers with commercial vehicles from Class 1 up to Class 8. The team at Levans listens to their customers before, during and after the sale is complete.

They work hard to ensure they build a truck to meet your daily work needs, and if you aren't sure what you need, they'll help you figure it out. Levans has several great relationships with commercial auto and truck dealers and can help facilitate the buying process too. They specialize in truck bodies, van solutions, toolboxes, mobile power solutions, lift solutions, hydraulic systems, specialty lighting, and crane systems.

As the company continues to expand its product lines and services, it remains focused on the fundamentals of providing exceptional customer service and quality. "Communication is key," said Brian Levan, President and CEO and third-generation owner. "Listening to and understanding the customer is the foundation of our company and our vision for the future. We have a mindset throughout the company that every customer is a priority, and really what it comes down to is we are here to serve them. We are not just that truck shop or machine shop. We combine the two. When we build the custom truck for exactly what a customer needs, if we can't buy a part, we have the full capabilities of machining or making anything we want and make it work to what you need," he said. "We are also proud to tell our customers that we service everything we sell," said Levan.
