About Us

It all started with some pesky squirrels. Flash back to 2014: Tom and Jes Flatley had moved into a renovated barn. It was a dream come true, but what they did not realize was that they were not alone. All was well, until the Flatley's returned home one day to find that a family of furry neighbors had made a cozy home in their brand new car, and eaten their way through the engine. Thousands of dollars in damage later, those squirrels had better considered themselves lucky!

It was around this same time entrepreneur Tom took an interest in his father-in-law's, (Kevin Keifridr) trade. Kevin had been in the screen printing and sign business since 2005. He is a professional designer and certified vehicle graphics installer who has installed hundreds of signs and vehicle graphics in the Tri-county area. Tom's knowledge of business management combined with Kevin's experience of craft fused a partnership like no other, and with a clever inside joke for a name, Lucky Squirrel Printworks was born. The Squirrel Family has only grown from there, and now we are an entire team working together like a well-oiled machine to serve the Tri-county area.

Squirrel Crew

What We Do

Provide Custom Apparel. With over 15 years in the screen printing garment business, we have printed it all. We offer shirts, sweats, jackets, towels and more. We pride ourselves on offering fair and straight forward pricing with NO hidden fees. We have short production times as we do everything on-site. We offer all types of clothing, including athletic and team apparel. Leave it up to Justin Lutz, our Production Manager, to screen print your items with precision and care. He has an eye for detail and is extremely knowledgeable and experienced in the screen printing process. You can trust that he will bring your design to life and that the quality of the finished product is his main focus.

Vehicle Lettering, Signs & Banners. We have designed and lettered hundreds of vehicles. From police cars to box trucks to race cars, we have done it all. Installing vehicle graphics is something we love to do, we take the blank canvas of a vehicle and turn it into a mobile advertising asset for our customers. All jobs are done on site using a combination of cut and printed graphics which allows us to provide services on almost any budget. It truly is a great investment for any small business to get their name out there, with lasting results.

"Signage" covers a lot of items. Yard signs, post and panels, LED's, channel lettering, light boxes, banners, magnet-ics.... just to name a few. We have done it all. If your job is too big for us to handle, we will point you towards one of our trusted partners who can.

Graphic Design. Offering everything from Logo Design to Business Cards to Party Invitations let one of our creative and knowledgeable graphic artists help you create the design you've been imagining! Your business logo is more important than you would think, but the clothing you are printing on is equally as important. That's where Rachel Stevens and Madie Krause, and our newest team member, Allie Zerbe come in. If you aren't sure where to start with your logo design, apparel selection or signage needs they would be happy to help you! Madie, Rachel, and Allie manage the process for our customers, from design through production. They are there to provide exceptional customer service!

Conclusion

What started with a family of Lucky squirrels has turned into a real family-owned small business. We have been growing to serve the needs of our local customers and will continue to do so with the new expansion of our Douglassville shop! There are many exciting changes to come, especially in our show room. Please feel free to stop by, we would love to give you a tour of our process, and you may even snag a free T-shirt as a souvenir.
