

## JDog Carpet Cleaning & Floor Care — Pottstown & Collegeville

JDog Junk Removal and Hauling was founded in 2011 by Army veteran Jerry Flanagan. Marketing himself as a veteran, Flanagan told MediaNews Group in 2019 that sales doubled, and within one year, he began hiring local veterans. He then began franchising, and the company has since grown to nearly 300 franchisees across the country.

*The company provides services “the military way — with respect, integrity and trust.”*

It is that motto that appealed to Kyle Lepkowski as a potential business owner and that he says makes the company stand out for customers. “It’s not just a slogan — it has a meaning to us because of our background,” Lepkowski said. “We take that with us to every single job we go to. At the same time, I want to take care of

customers and surpass their expectations every time. I think a franchise would be a good route to take because I would have a base to work from, rather than building the business entirely from the ground up," he said. "And it would offer me some flexibility with my time — to devote to my family. My wife, Christina, is a third-grade teacher at Franklin Elementary School in Pottstown. The couple has two children — John, who was born in 2020 and Emma, who was born in October."

"I also worked with a franchise coach and looked at several different companies," Lepkowski said. "In January 2022, I began talking with JDog, and by spring knew that was the company I wanted to work with. In September I said, 'Let's go.' I went through the training, got my JDog van and officially launched the business Nov. 9. We service portions of Berks, Chester and Montgomery counties — All the way to east Greenville, down to Collegeville, down into Exton and then Elverson over to Reading and past Boyertown. We clean it all — carpet cleaning, floor care, hardwood, tile and grout, upholstery, natural fiber and even stone. If we can get our hands on it, we can clean it," Lepkowski explains.

"We also have spot and stain removal services and offer cleaning of upholstery, power washing services and emergency water extraction," he said. "Another area we have begun to help people with is carpet dyeing from bleach stains and spots to acid stains on any type of carpeting from polyester to natural fiber rugs. Mistakes happen and we can help to repair rather than replace."

From carpets to hardwood and tile to power washing, JDog Carpet Cleaning & Floor Care offers a range of residential, commercial and industrial cleaning services for residential and commercial customers. Their local business operators are Veterans and Military family members
