

BUSINESS SPOTLIGHT

Dumpster Dudez is a simple concept. At some point everyone has something they'd like to dispose of, but generally no means of doing so. Dumpster Dudez' "EZ IN, EZ OUT" tagline aptly explains how they operate — quickly, efficiently, and economically. The management team at Dumpster Dudez takes pride in being easy to deal with and reasonably priced, doing what they can to make your task easier; and easily getting their equipment to and from your requested job location. With four dumpster sizes available for rental, they have a bin for any and every job.

Dumpster rentals are available for both residential and commercial clients, with clients ranging from individual homeowners, to real estate investors, to large roofers and contractors. When you work with Dumpster Dudez, you will find that their courteous and professional employees and state-of-the-art equipment that is always kept clean is what separates them from the competition. Kiene and his team pride themselves on bringing their "A game" to every customer interaction, every time.

Dustin Kiene, Dumpster Dudez Founder and CEO, started the business in 2015 with just one truck and ten dumpsters. At the time, Kiene was running a successful trucking business, but he wanted something more, and so Dumpster Dudez was born. After just three years in business the company has more than quadrupled its capacity. In 2019, Dumpster Dudez decided to take the next step in their growth plan and began offering franchises. Kiene and his team look forward to bringing their service to new areas in Pennsylvania and across the country.

For more information about Dumpster Dudez, their rental process, or for franchise information, call 484.256.3601 or visit them online at dumpsterdudez.com.
