FOCUS ON INSURANCE AGENCIES

R&B Insurance Services

At R&B Insurance Services, we have developed several ways to help businesses of all sizes with "no human contact" employee benefit communications and a "no human contact" method of collecting employee benefit information to complete the benefit enrollment during — and beyond — the COVID-19 crisis.

We created a Human Resources Information System, using software solutions, at no additional cost to our clients. Companies of all sizes can enroll their current and future employees into the company's benefit plans, without using paper forms or paper applications. Our HRIS system explains each benefit clearly to the employee, so the employees can customize their employee benefit selection to build a plan tailored to his or her specific needs. The enrollment process takes minutes, and we can reduce the company's open enrollment process from weeks to days. After the HRIS system has captured the employee benefits decisions, these decisions are electronically delivered to each of the employee benefit vendors. There is no longer a need for our clients to collect

forms, process forms, and send forms to the employee benefits providers. This saves our clients time and money.

We partner with some of the best professionals in the industry to ensure our clients are in compliance with State and Federal requirements such as COBRA, FMLA, and other mandatory notifications. These services are provided at no additional cost for our medical insurance clients.

Through our simple to understand, and customized solutions, R&B Insurance Services can show your company how to maximize the resources your company has now, while saving both time and money. Our clients have also discovered that offering quality benefits at the best value, can increase employee retention and employee morale. And by allowing employees to have some flexibility in the design of their employee benefits, the employees have peace of mind.

We are locally located at 833 North Park Rd Suite 200 Wyomissing Pa 19610 610-373-2000 opt 301.
