

CLEAN FLOORS & MORE

A DECADE OF FLOOR AND CARPET EXCELLENCE

CLAUDIA & GILBERT NAZARIO

In a rapidly evolving business environment, certain elements remain timeless in their significance. The purity of a gleaming floor, the freshness of a meticulously cleaned carpet - these are the hallmarks of a commercial space that exudes professionalism and attention to detail. For ten years, Clean Floors & More has embraced these values, ensuring businesses along the 422 Corridor and its surrounding areas have a foundation of cleanliness upon which they can grow.

Rooted in Community, Driven by Family

At the heart of Clean Floors & More lies a story of a committed husband-and-wife team, our journey over the past decade has been a collaborative relationship with the community. We aren't just a business operating in Berks; we are part of its fabric, interwoven with its businesses and families. As a local family-owned entity, every client is a neighbor, every project a personal mission.

The Legacy of Cleanliness

In the world of commercial spaces, cleanliness signifies professionalism, meticulousness, and respect for both employees and visitors. It creates an ambiance that's conducive for productivity and reflects the values of the establishment. With a decade under our belt, Clean Floors & More has become synonymous with this level of cleanliness.

The Value of Experience

There's an undeniable wealth in experience. Over our ten-year journey, Clean Floors & More has faced various challenges — from dealing with the most stubborn floors and stains to adapting to new cleaning technologies. With every challenge, we have learned and evolved. Each experience has not only enhanced our technical prowess but also enriched our understanding of our clients' needs. We've come to recognize that every business has its unique requirements, and a one-size-fits-all approach is not always the answer. Customization is the key, and we pride ourselves on our ability to tailor our services to perfectly align with the specific demands of each client.
