## Signature Sign Inc.

Signature Sign, Inc. supports customers in Eastern Pennsylvania, New Jersey, Delaware, Maryland, and parts of Virginia. It is headquartered at 926 New Holland Road in Reading, in a 14,000-square-foot building that owner Denny Boyer bought in 1986. Having been active in the sign business for over 53 years, Boyer has accumulated a tremendous amount of insight and know-how about what does and doesn't work with signage. The site is a stark contrast to the company's humble beginnings. It's also evidence of how resourceful and committed Boyer is to crafting quality, eye-catching products for his clients, traits that guarantee both new and repeat customers.

Boyer not only has the expertise but also owns the commercial equipment to carry out service and installation calls. The business has two service trucks that go up 40 feet, one that goes up 58 feet and another that extends 82 feet. If a service person needs to disconnect and take down a sign, Boyer has access to a crane and a lift. From putting up and taking

down signs to changing LED lights and replacing power supplies, Signature Sign does it all.

As a custom sign manufacturer, Signature Sign is UL-certified. The Underwriter Laboratories (UL) certification indicates that a service or product meets local and federal safety and environmental regulations, and that the manufacturer follows quality and safety standards.

Signature Sign is also a member of and supplier in Pennsylvania's "COSTARS," the Commonwealth's cooperative purchasing program. According to the Pennsylvania government's website, COSTAR businesses respond to bidding opportunities on the COSTARS or PA eMarketplace website. A supplier that successfully responds to a contract solicitation may be awarded a contract.

For additional information about Signature Sign Inc., or to schedule an estimate or service appointment, call 610.775.0851 or email [info@signaturesigninc.com](mailto:info@signaturesigninc.com), and visit <https://signaturesigninc.com/>

## Muhlenberg Greene Architects

Muhlenberg Greene Architects (MG Architects), established in 1920, has been a cornerstone in Berks County, Pennsylvania, offering comprehensive architectural design, planning, and construction management services. The firm's leadership team embodies a hands-on approach, ensuring projects are both innovative and practical.

The three principals at Muhlenberg Greene Architects—Scott O. Graham, AIA, LEED AP BD+C, NCARB; Robert B. Conklin, AIA, NCARB; and James A. Sarro, AIA, LEED AP BD+C—form an exceptional leadership team that seamlessly blends sophisticated, educated design with deep construction expertise. With decades of combined experience, they bring a refined architectural vision rooted in technical precision, sustainability, and practical buildability.

Scott Graham is a leader in sustainable design and Building Information Modeling, ensuring projects are forward-thinking and environmentally responsible. Robert Conklin's extensive experience in documentation and construction administration makes him a vital link

between concept and execution, fostering strong relationships with contractors. Jim Sarro's expertise in adaptive reuse and municipal planning brings a unique perspective that balances historical integrity with modern functionality.

Together, they champion a collaborative and construction-friendly approach, ensuring that each project is as structurally sound and efficiently built as it is aesthetically compelling.

In recent developments, MG Architects has relocated to a permanent office at 1268 Penn Avenue, Wyomissing, PA 19610. This strategic move enhances their ability to serve the local community and underscores their commitment to the region. The new location offers a centralized base for clients and staff, facilitating better collaboration and accessibility. This transition marks a significant milestone in the firm's century-long history, reinforcing their dedication to shaping the built environment of Berks County.

For those seeking a collaborative and experienced architectural partner, MG Architects invites you to contact them to discuss your upcoming project needs.
