WHY IT PAYS TO OUTSOURCE YOUR PAYROLL

There's more to processing payroll than providing your employees with compensation each pay period. Payroll teams must keep up with the latest requirements, from overtime laws and federal forms to minimum wage and tax law updates.

Many small businesses taking care of their payroll in-house are feeling the crunch. Whether this is due to staff shortages or an increased workload because of business growth, now is an ideal time to consider outsourcing your payroll.

When you entrust your payroll to our payroll professionals at Canon Capital, you'll gain

our years of experience and up-to-theminute expertise.

With our help, you will:

Maintain Tax Compliance: We keep up with the latest information on federal, state, and local taxes. So whether you're self-employed, a non-profit, or a for-profit with staff in the hundreds, we have the

knowledge to process your payroll correctly and in compliance with current tax requirements.

We can also prepare your tax liability deposits, quarterly returns, and annual returns. We customize the program that best suits your needs.

Cut Down on Payroll Errors: Payroll is all we do every day. We focus on your account so you can focus on running your business.

Enjoy the Convenience of our Employee Self-service Portal:

Your employees will be able to see their payroll stubs on-demand, thanks to the Employee Self-service

Portal that is part of our service package.

Save Time: It's simple. We save you time. You submit your payroll data each pay period and we do the rest.
