## Home Stream, LLC

Home Stream is an interiors business focusing on beautifying and simplifying your environment to promote an enhanced sense of well-being. Last month we shared our six offerings and approach. This month we want to share with you what sets us apart from other home interior improvement professionals.

Emily and Paula have a variety of education and work experiences that allows them to exceed your expectations when it comes to your home dilemmas and challenges. Emily holds an Associate's degree in Interior Design and a Bachelor's degree in Human Development. Most recently her work in Neurologic behavior intervention gives her unique insight for designing sensory friendly spaces for neurodiverse children. She has a passion for functional living and keen eye for detail, as well as big picture vision for all your interior design/styling needs. Paula holds a Bachelor's degree in Family and Consumer Science and a M.Ed. in Counselor Education. Following successful careers in both adult education and nonprofit senior services where Paula connected with many adult children of seniors who needed to downsize their parent(s) immediately due to a health crisis, she has made it her mission to work with this population to be proactive and not reactive. Paula brings a goal oriented and measured approach to the downsizing journey.

No matter the goals, vision or needs for your home, we have a solution! Contact us today! For additional information please visit [www.homestreamspace.com](http://www.homestreamspace.com).
