**Home Stream, LLC**  
*Professional Organizing  
and So Much More!*

Home Stream is an Interiors business focusing on beautifying and simplifying your environment to promote an enhanced sense of well-being. We are a mother daughter team of streamline professionals and designers who, with our background and experience, get to know you on a deeper level to incorporate your lifestyle into your living space. Our mission is to bring a calm flow of energy, clarity, and cohesion to your home. We achieve this through our tailored offerings including, but not limited to, professional organizing, Interior design and styling and senior downsizing.

We offer six in home services, all which focus on improving and refining your living space. These six services include: Home Stream *Streamlined*, Home Stream *Sensory*, Home Stream *Seniors*, Home Stream *Styled*, Home Stream *Sold* and Home Stream *Seasonal*. Regardless of your home dilemma, Home Stream has a service that can be tailored to meet your needs and vision for your environment. Unlike most consultations, which can last anywhere from 15 to 30 minutes, we offer a 90-minute session to explore the possibilities of your space and learn about your desires for simplified living.

For additional information please visit [www.homestreamspace.com](http://www.homestreamspace.com).
