## INTERNSHIP PROGRAM

In late 2022, Daniel Boone High School contacted Lucky Squirrel Printworks asking if they would be willing to have an Intern who was thinking of pursuing Graphic Design. Agreeing, they took on a Senior Student, Sadie, who later became an employee for the company.

**Work designed and created by Sadie**

“During my internship, I got to see the ins and outs of a professional environment for the world of Graphic Design. Everyone at the company was so kind and willing to give me work and practice. I learned a lot through my internship here and am very grateful that I get to keep working for an amazing business. I am thankful that Daniel Boone was able to reach out to Lucky Squirrel Printworks and would recommend this place as a great starting point for other future Graphic Designers or students interested in pursuing something of that field.”
