At Home Service

A Short Story of a Lifelong Journey

By Chris Knox, Owner,
At Home Service, LLC

Life is a journey. Yes, it is a cliché, but true. And the thing about life's journey is it always moves forward along a completely unpredictable path. Yet with all the unpredictable highs and lows, we always have the ability to choose a new path. Still an unpredictable path, but a new and exciting one none the less.

My own journey led me right to here, when in Oct. of 2020 I chose to start a residential service company. A company where I'm able to take all the experience I've gathered from Drexel University, the US Navy, working for Architectural Firms, and a decade long career as a Service Executive, and apply them in ways that set a new standard for Customer Experience and helping others enjoy life to the fullest.

At Home Service LLC is a residential service company focused on providing home safety and residential services to Senior Citizens who wish to live a safer, healthier, and more comfortable life in their own home.

The most critical element of long-term Senior Citizen independence is to minimize the risk of injury. All the planning, saving, and dreaming of new experiences are in jeopardy with a single fall or incident. That is why our service process begins with a comprehensive At Home Safety Assessment focused on fall prevention, accessibility, and home safety. Our team of certified Safety Specialists are trained to understand a client's needs and expectations for aging at home, and identify improvements that help to protect their health, safety, and comfort.

At Home Service is happy to work independently or with a client's family members and Care Providers to be part of a comprehensive home support team.

From safety modifications and maintenance services to the latest home automation technology, our expert team members and network of pre-screened local service professionals have the support you need with the safety and respect you deserve.

If you or a loved one are ready to begin a journey toward a longer, healthier, and happier life at home, or if you are a service professional interested in joining our support team, please give us a call. We'd love to talk with you.
