CANON CAPITAL — IS IT TIME FOR A PAYCHECK CHECK-UP?

It's a good practice to recommend that your employees periodically perform a quick "paycheck check-up" to ensure that they are withholding the desired amount of tax each pay period. Striking that balance can help protect against their having too much tax withheld or having too little tax withheld and facing an unexpected tax bill or penalty. Employees who have started a new job, moved, or have experienced other changes in their personal circumstances may also want to do a "paycheck check-up."

The IRS provides a Withholding Calculator on their website to be used by taxpayers. You can find the IRS Tax Withholding Estimator at IRS.gov.

Save time and money with a payroll service.

There's more to processing payroll than providing your employees with compensation each pay period. Payroll teams must keep up with the latest

requirements, from overtime laws and federal forms to minimum wage and tax law updates. That's why it makes sense – and can save money – to work with a payroll service.

We customize our services to match each client's individual needs to serve any size group or program, including the added benefit of caring for withholding and reporting local and LST taxes.

Our in-house expertise adds value to the payroll process. With the support of our Certified Public Accounting and Technologies departments, Canon Capital can answer your questions quickly and be responsive to your special needs.

One source, many services, the right decision.

Payroll is all we do every day. We focus on your account so you can focus on running your business. Call 215.723.4881, ext. 700 or visit canoncapital.com to learn more and get started.
