

LEVAN MACHINE & TRUCK EQUIPMENT A TRADITION OF EXCELLENCE FOR OVER 80 YEARS!

Since its humble beginnings in 1936, through good times and bad, and everything in between — including the current global COVID crisis — Levan Machine & Truck Equipment, headquartered in Fleetwood, PA, just outside of Reading, has adapted in order to survive and expanded in order to thrive over the years, and today it is recognized as one of the top 50 businesses based in Berks County.

Levan Machine and Truck Equipment is a one-stop, full-service machine shop and custom fabricator, for all things related to machining and commercial vehicle upfitting. Since 1936 their machine shop has serviced customers throughout the United States and currently also services customers internationally. From custom machining and fabricating, to prototyping, to welding, to completely engineered projects, Levan Machine and Truck Equipment is a job shop that specializes in custom work. Levan also provides after-market truck accessories/parts.

In 2010, Levan launched their Commercial Truck Upfit division which services the commercial and fleet market throughout Pennsylvania, New Jersey and Maryland. Their highly qualified, experienced team builds a commercial truck specific to your daily work needs. Whether you need a service, platform, crane or dump body, snowplow or spreader, liftgate, central hydraulic system or PTO, Levan's truck experts are trained to build a truck that will increase your efficiency and get the job done. They also offer general truck repair and maintenance.

Levan Machine and Truck Equipment has an extensive selection of truck products regardless of the size of commercial vehicle from Class 1 up to Class 8. The team at Levan listens to their customers before, during and after the sale is complete. They work hard to ensure they build a truck to meet your daily work needs, and if you aren't sure what you need, they'll help you figure it out. Levan has a number of great relationships with commercial auto and truck dealers and can help facilitate the buying process too.

They specialize in truck bodies, van solutions, toolboxes, mobile power solutions, lift solutions, hydraulic systems, specialty lighting, and crane systems.

As the company continues to expand its product lines and services, it remains focused on the fundamentals — providing exceptional customer service. "Communication is key," said Brian Levan, president

and CEO and third-generation owner. "Listening to and understanding the customer is the foundation of our company and our vision for the future. We have a mindset throughout the company that every customer is a priority, and really what it comes down to is we are here to serve them. We are not just that truck shop or machine shop. We combine the two. When we build the custom truck for exactly what a customer needs, if we can't buy a part, we have the full capabilities of machining or making anything we want and make it work to what you need," he said.

Levan Machine & Truck Equipment is located at 3417 Pricetown Road, Fleetwood, PA. For additional information, please call 610.944.7455, and visit: www.levanmachine.com.
